## SSU considers notifying Parents of code violations

Caitlin Gordon Staff Writer

University officials are currently debating the implementation of an amendment to the Family Education Rights and Privacy Act at SSU. Passed last year by Congress, the clause gives universities the option of notifying the parents of underaged students who have violated campus codes on drugs and alcohol.

Several universities, such as the University of Delaware, Indiana University, and Penn State, have already added the amendment to their policies. SSU has not yet reached a decision and is "still in the discussion stage," according to John Fields, Assistant Vice President of Student

Although SSU has no parental notification policy, "If an incident is severe enough, parents will be notified," said Fields. If the student neglects to pay the fine issued by the University,

parents can also find out about incidents when the bill is sent home. Otherwise, parents are not informed of disciplinary action, unless the situation is severe, such as alcohol poisoning or sexual as-

SSU is one of the many universities and coltal notification amendment and debating whether or not to implement the change in policy on its campus. If the University decides to seriously consider adopting it, stu-

dents will have a say in the decision-making process. Fields said the University

'wants to give students an opportunity to voice concerns [and would] ideally want the students' endorsements."

SSU must answer several questions before making a final decision, such as which situa-

leges nationwide still discussing the paren- tions would require that parents be notified; how much control the University would exercise over its students; and which parent would the University notify, if the parents are separated or divorced. These are only a few of the many guidelines that would need to be discussed. "This is not a simple decision of just whether or not to do it," said Fields. There are many aspects involved in making this decision.

Fields said that adopting such a policy on our campus could have positive results. Right now, parents only know what is happening at school by what their children tell them. So, after several violations

### semaine de français" Celebrate "Le

Stacey Volanto Staff Writer

The French department kicks off National French Week this Thursday with a wide selection of activities planned to enhance the average student's knowledge of the French language and culture. Not many people realize how much France has influenced our language, our culture, our food, and our education.

Arlene White, an associate professor of French at SSU, knows all about France's contributions to the United States. "We hope to increase awareness of French as a language and the country's contributions to our society, in literature and art,

mathematics and science." Even though most students choose to learn Spanish, there are just as many advantages for learning French."

At SSU, the French Department is working to attract students to the ranks of "francophone" (French-speaking) individuals on campus. White and Gerry St. Martin, also a professor of French at SSU, are coordinating all of the events for French Week. Thanks to the two of them, students have many fabulous events to look forward

The week commences on Thursday, Nov. 4, with a French dinner at the Bistro in the Commons, from 5-7:30 p.m.

The gourmet meal includes salmon, pheasant, steak, quiche, and assorted vegetables and desserts and costs \$8.50 per person. French music playing in the background, instead of the usual music, will help create an authentic atmosee FRENCH

page 2

As a part of French Week, a night of games in French, will be offered at the House of Modern Languages.

## **Environmentalists Boycott Coca-Cola**

Staff Writer

The Flyer - November 2, 1999

In an effort to further healthy environmental practices, the Grass Roots Recycling Network (GRRN) began a Dirty Jobs Boycott in 1997, according to the National Environmental Wire for Students. GRRN, a national organization, started this campaign to encourage students to refuse jobs at corporations that pollute the environment. The first company to come under fire is Coca-Cola.

GRRN alleges that Coke is not meeting promised recycling standards. "Coke's failure to use recycled plastic is hurting recycling and the environment," said Andy MacDonald, Field Director for the Dirty Jobs Boycott. "It is time for students to demand more of market leaders like Coke before going to work for them." GRRN claims that while Coke began using recycled materials in 1990, the company has since returned to manufacturing

fore cont of the soft drink industry. The company website maintains that Coke recognizes the importance of helping the environment and that tons of waste are saved annually through their recycling programs.

GRRN's goal was to put pressure on companies by promoting the Dirty Jobs Boycott at universities across the country. "Corporate

recruiters are now a common and aggressive force on college campuses, seeking the best and brightest to join their company," said MacDonald. "We call on them to include a demonstrated commitment to

our environmental future in their benefit package."

Becky Emery of Career Services Coca-Cola has long been at the said that Coca-Cola representatives have attended job fairs at Salisbury, primarily recruiting for summer jobs and internships. She believed that students should feel comfortable asking an interviewer about its corporation's policies, as long as it is done in a professional manner. "Students should always check the facts," Emery said. "They should never work at a place they're not passionate about."

For more information about the Dirty Jobs Boycott, check out the Grass Roots Recycling Network website at www.grn.org. To read more about Coca-Cola's corporate practices and environmental policies, log on to www.thecoca-

We sponsors that our faculty strive to set an hope that if some elements of our com-

## Response from Whall

Tony Whall's response to Dombroski's Memo:

Thank you for your response to the Horizon's Initiative. Your forthright critique will, I hope, encourage others to voice their criticisms and concerns in a responsible and civil manner, so that we can have a productive debate on this potentially divisive issue.

Your letter implies that you are unaware of any bigotry toward any group of students on this campus; that such bigotry is not apparent in your school and would not be tolerated by a faculty that prides itself on its professionalism and its service to its students. My experience has been somewhat different, and it has led to my belief that the Horizons program is a necessary, if hopefully temporary, anodyne to a climate of prejudice towards homosexuals on this campus.

In many of my literature classes, students will jokingly guess at a character's motives by speculating that "maybe he's a faggot." This usually elicits a complacent chuckle from the class. The suggestion that such a comment might be hurtful and insulting to some members of the group-that they perhaps wouldn't be as cavalier about saying [racial slurs], often serves as a revelation to some, but is met with incomprehension by others who just don't understand that such comments about homosexuals are blatant examples of prejudice.

I have had strenuous debates in my Critical Thinking and Writing classes about the moral evil of homosexuality voiced by earnest and articulate young people who believe that homosexuals are a menace to society.

I have heard more young people than I care to remember, publicly voice gnance and fear of homosexuals in ways that would be shocking to their audiences if they were speaking of any other minority group.

These experiences, which I cannot believe are unusual or atypical in classes in which students discuss social and moral issues, have led me to believe that homosexuals experience cruel and casual intolerance regularly and are forced to conclude that such discrimination is acceptable to the majority of the people in this community. They have little choice, then, but to hide their identities, feel fear of being discovered, feel perhaps even shame for being who they are in a society that considers discrimination against them justified.

If this is an accurate description of the climate here, if my experiences are typical, then it seems we have to do something as a whole community to change these hateful attitudes. One of the things that Horizons does is let homosexual students know that they are welcome as part of this community, that they need not be fearful about being who they are, that this "family" does indeed embrace all its

Another thing I hope it will do is enable us as a community of students and faculty and staff to discuss this problem openly and civilly. Your letter has contributed to the dialogue, and I am grateful for that.

serve the best food of any college in

Maryland. This comes as a relief to the incoming freshmen and new transfer students, many of whom are experiencing life without home cooked meals for the first time. Perhaps one of the best things about the food here at SSU is the selection. "There is a good variety from which to select. Even

if you don't like the main meal, you can pick enough to create your own," sophomore Christi Pescatore said. Every 31 days, the menu is rotated to help ensure this variety. This way, the same meal is only served four times a

Sometimes this is not obvious to all students. "There is a good variety," freshman Alex Wroe said, "but I find a bit of repetition after awhile." However, complaints like these do not go unheard. "Every remark and customer survey is taken into account when planning our menus," said Jane Fandray, the Director of the University Dining Services. She loves feedback from the students, and encourages them to share their thoughts with UDS.

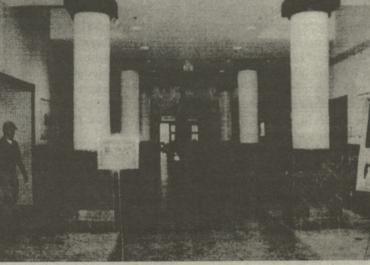

To ensure the quality of the food, four chefs and eight regular cooks are employed. The food is freshly prepared, which does, sometimes, result in a wait. However, Fandray notes that the worthwhile wait ensures that the food tastes fresh. Also, the temperature of the food is checked every 30 minutes to ensure that what should be hot is not cold and what should be cold is

## Local band finds loyal fans at SSU

Matt Borlik Staff Writer

It is not uncommon to hear students at SSU complaining about the lack of a music scene. For years, shows have been rare, crowds have been small, and sible for the show. "It was messed up," interest has been minimal. However, while Dow said, "So we played our set anyway. most students sit around whining, others The police didn't do anything." are out making a difference. Divide, a local thrash/hard-core band, has been steadily leading the way in creating a scene for the one occasion. However, all of the memlast two and a half years.

## Gordy helps freshmen adjust to college life

only has a few ninutes to catch ner breath. Next on her agenda is the organization of a massive training ession, in which ll the peer leaders, ounselors, faculty, and staff involved with freshmen orientation get together and discuss heir plans for the future of the program. Scheduled for later this senester is Totally or You, a stress elief program deigned to help stu-

dents cope with the anxiety of finals. Held on the last day of classes in the Wicomico Room of GUC, the TFY program offers free massages, tips on how to control stress,

Gordy advises students to become active while attending college. "Take advantage of everything the University has to offer," she said. With a variety of clubs and organizations available to choose from, incoming students have plenty of opportunities to become active in campus life and meet new people. "An involved student is a lasting student," Gordy said.

At home, Gordy spends most of her time taking care of her two children She has an 11-year old daughter and a 16-year old son. "They keep me very busy," Gordy said. When it comes time for her children to attend college, she wants them to be able to enjoy the same new student experience as she did. "College is a wonderful transition from home to total independent living," Gordy said. "If my children were to attend SSU, they would probably commute, and miss out on a lot. As much as I love SSU, where they want to go will be their decision."

Gordy's main hobby outside of her family life is reading. She is a member of a book club called The Bridge Project, consisting of several women who discuss important issues and concerns in society. "Over the two years we've been together, we've really formed a special bond," she said.

Although her job is a lot of hard work, Gordy enjoys her time here at the University. The most rewarding aspect of her job is getting to watch incoming students develop over their stay at SSU, Gordy said. "I get so attached to the students." During the course of their enrollment, Gordy forms many relationships with students, some of which last even after graduation. "It's surprising how many of them will call you up, or send a card after they graduate," she said. Her most memorable moment was watching her first group of incoming freshmen graduate. "It was excitng," she said, "but it was also sad."

## Picks for the Week:

Sports Editor

### NFL-

NY JETS over Cardinals - New York is playing for mere re-

Ravens over BROWNS - Baltimore has had some tough losses

REDSKINS over Bills - The Skins will be challenged by Buffalo's

**COLTS over Chiefs** - I will take Indy in the Game of the Week. Jaguars over FALCONS - Jacksonville is finally beginning to put some points on the board.

Broncos over CHARGERS - Where has that San Diego defense PANTHERS over Eagles - Carolina will regroup from loss to

the Falcons.

SEAHAWKS over Bengals - This one will be over early. PACKERS over Bears - Too much Brett Favre.

Steelers over 49ERS - These two teams are both headed in the wrong direction.

### College-

TENNESSEE over Notre Dame - I'll take the Vols in this prime-

MARYLAND over NC State - The Terps bounce back in a big

Penn State over MINNESOTA - It just may be the Nittany Lions' season.

Virginia Tech over WEST VIRGINIA - The Hokies need to win the rest of their games and do some praying as well.

WISCONSIN over Purdue - The Badgers are just playing great. SALISBURY over Ferrum - The Gulls are still very much in the thick of things.
